

Ahmet Emir Yılmaz

Istanbul, Türkiye | ahmet.yilmaz.emir@gmail.com | +90 553 297 7271

Profile

Geomatics Engineer specializing in Spatial Data Science and PropTech (Real Estate Technologies). Processes geospatial big data with Python and SQL to build analytical decision-support systems for smart cities and blockchain based infrastructures.

Experience

GIS Data Control Specialist – MipMap Technologies (Part-time)

Istanbul, Türkiye

10/2025 – 11/2025

- Carried out data validation and QA/QC processes for 3D digital twin models supporting urban infrastructure within Istanbul scale smart city projects.
- Digitized traditional property records and performed spatial data processing and analysis for the establishment of GIS-integrated Real Estate Management Information Systems (PropTech).

Intern – Ram And Sons İnşaat ve Dış Tic. A.Ş.

Istanbul, Türkiye

08/2024 – 09/2024

- Conducted surveys for steel structure and tunnel projects.
- Contributed to map production and data management processes.
- Coordinated field operations and improved process efficiency through proactive communication with cross-functional teams.

Intern – Mescioğlu Mühendislik ve Müşavirlik A.Ş.

Ankara, Türkiye

08/2023 – 09/2023

- Produced orthomosaics and base maps.
- Managed GIS datasets and improved their accuracy.
- Supported project documentation and communication processes.

Technical Skills

- Programming & Data Management:** Python, SQL, Relational Database Management, Spatial Analysis.
- GIS and Location Intelligence:** QGIS, ArcGIS, ENVI, SNAP, web-based spatial analysis.
- 3D Modeling & Photogrammetry:** Agisoft Metashape, CloudCompare, Point Cloud Processing, Digital Twin Modeling.
- Spatial Design & CAD:** AutoCAD, NetCAD, Bentley MicroStation, 3D city infrastructure.
- Office Software:** Microsoft Office.

Projects

- Child Friendly Cities GIS Project – Developed a GIS-based platform analyzing cities from a child-friendly perspective.
- Blockchain-Based 3D Infrastructure Design for Real Estate Transactions in Smart Cities.

Education

B.Sc. – Geomatics Engineering – Istanbul Technical University (ITU)

Istanbul, Türkiye | 2020 – 2026

Python and Algorithms – Samsung Innovation Campus

Online

Leadership & Activities

Board Member, ITU Geodesy and Photogrammetry Club (JFK)

Istanbul Technical University |

06/2024 – 05/2026

Soft Skills

- **Analytical Thinking & Problem Solving:** Ability to interpret complex spatial data and translate it into business decisions.
- **Agile Learning & Adaptation:** Rapid adaptation to new technologies (Web3, blockchain, etc.) and programming languages.
- **Cross-Disciplinary Communication:** Able to bridge field engineering teams with office software/data teams.
- **Project & Process Management:** Organization, event planning, and leadership skills gained from board experience at ITU JFK.

Languages

Turkish – Native

English – Advanced (Listening, Reading, Writing, Speaking)
